Reliable, professional support, customised to your needs

Reassurance through resource 24–7

Boulting have harnessed vast experience in systems integration, backed by extensive company resources and a professional approach to offer comprehensive, fast response 24-7 Service & Support packages.

Supporting systems from legacy to the latest

Boulting service and support combines up-to-the-minute systems knowledge with unparalleled experience of legacy systems.

Our experienced, dedicated engineering team has the tools, knowledge and backing to get your system running again safely and in the shortest possible time.

With over 80 experienced systems engineers, we offer a wealth of vendor independent experience drawn from diverse industries, processes and platforms.

Secure in our knowledge:

- PLCs, SCADA, HMIs
- Drives
- Control systems and networks

Why choose Boulting?

- We have large company resources providing an extensive knowledge base for fast resolution
- Professional, dedicated team to get you running again safely and quickly
- Extensive product knowledge
- In-depth sector experience
- Simplified engagement
- Collaborative culture

Core service

Support whenever you need it.

- 24 hour, 365 days a year call handling
